

## What to Bring to Your New Hire Health Screening

---

Welcome to University Medical Center of Southern Nevada. Please follow the instructions below to gather the information needed to complete your pre-employment health screening.

**Please arrive 15 minutes prior to your appointment time with all of your completed forms and any other information listed below. You can also send the completed forms to [NewHireEMP@umcsn.com](mailto:NewHireEMP@umcsn.com) or fax them to 702-765-7945, prior to your appointment.**

### 1. Tuberculosis (TB) Screening requirements:

- Copies of all TB related tests completed *within the last 12 months*, including all skin tests and/or blood tests (such as Quantiferon or T-Spot)
- Proof of ANY past positive TB tests and applicable chest x-rays (regardless of date)
- Proof of treatment for latent or active TB

### 2. Fit Testing:

- If you are working with patients or will be going into areas with patients, you will require a fit test.
- Please be sure you are cleanly shaven and have your hair pulled back.

### 3. Immunization requirements and documentation:

- **\*\*Varicella/Chickenpox immunity**, proof of:
  - 2 doses of either the chickenpox or shingles vaccine or
  - Positive blood test (IgG) showing immunity
- **\*\*Measles, Mumps and Rubella (MMR) immunity**, proof of:
  - 2 doses of vaccine or
  - Positive blood test (IgG) showing immunity
- **Pertussis vaccine**, proof of:
  - Tdap vaccine
- **Hepatitis B vaccine**, proof of:
  - 3-dose vaccination series or
  - 2 dose series of HeplisavB or
  - Positive blood test showing immunity (hepatitis B surface antibody) or
  - History of positive disease (hepatitis B surface antigen)
- **Influenza vaccine**, proof of:
  - Current influenza vaccination (flu season is from August to May/June)
- **\*\*COVID vaccine**, proof of:
  - 2 dose series of Pfizer or Moderna and any booster doses or
  - 1 dose of Janssen/Johnson and Johnson/J&J and any booster doses

[\*\* = *REQUIRED for all employees at UMC*]

### Tips on how to obtain your immunization records:

- Ask parents or other caregivers if they have records of your childhood immunizations.
- Check with previous employers (or the military, if applicable) who may have required immunizations.
- Check with your doctor or public health clinic.
- Consult your local immunization registry. Nevada's state registry is called Nevada Web IZ. The link to the public portal is: <https://izrecord.nv.gov/public/Application/PublicPortal>
- All states and some cities have centralized registries of vaccines given by local providers. The Centers for Disease Control and Prevention (CDC) has a listing of registry contacts and websites here: <https://cdc.gov/vaccines/programs/iis/contacts-locate-records.html>
